

**MAGENTO1.9.X SHOPPING CART
INSTALLATION GUIDE**

Module Installation Process

Step 1: Install Magento 1.8.1.0 on your server.

Step 2: Unzip the “**Magento1-9-x_ccavenue.zip**”

Step 3: Upload the “**app**” and “**skin**” folder into your Magento root directory through FTP client.

Step 4: You can use FTP Client <http://www.filezilla-project.org> (it is available for Free) or any other FTP Client.

Step 5: If the front end template is different, please copy the 'ccavenuepay' folder to the site template folder.

e.g.-

copy files from the "**app\design\frontend\base\default\template**" and paste them into the corresponding template folder path.

"app\design\frontend\[template_folder]\[template_sub_folder]\template\"

Step 6: Now access your Magento admin and Flush Cache Storage to perform the steps indicated below.

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

[Flush JavaScript/CSS Cache](#) Themes JavaScript and CSS files combined to one file.

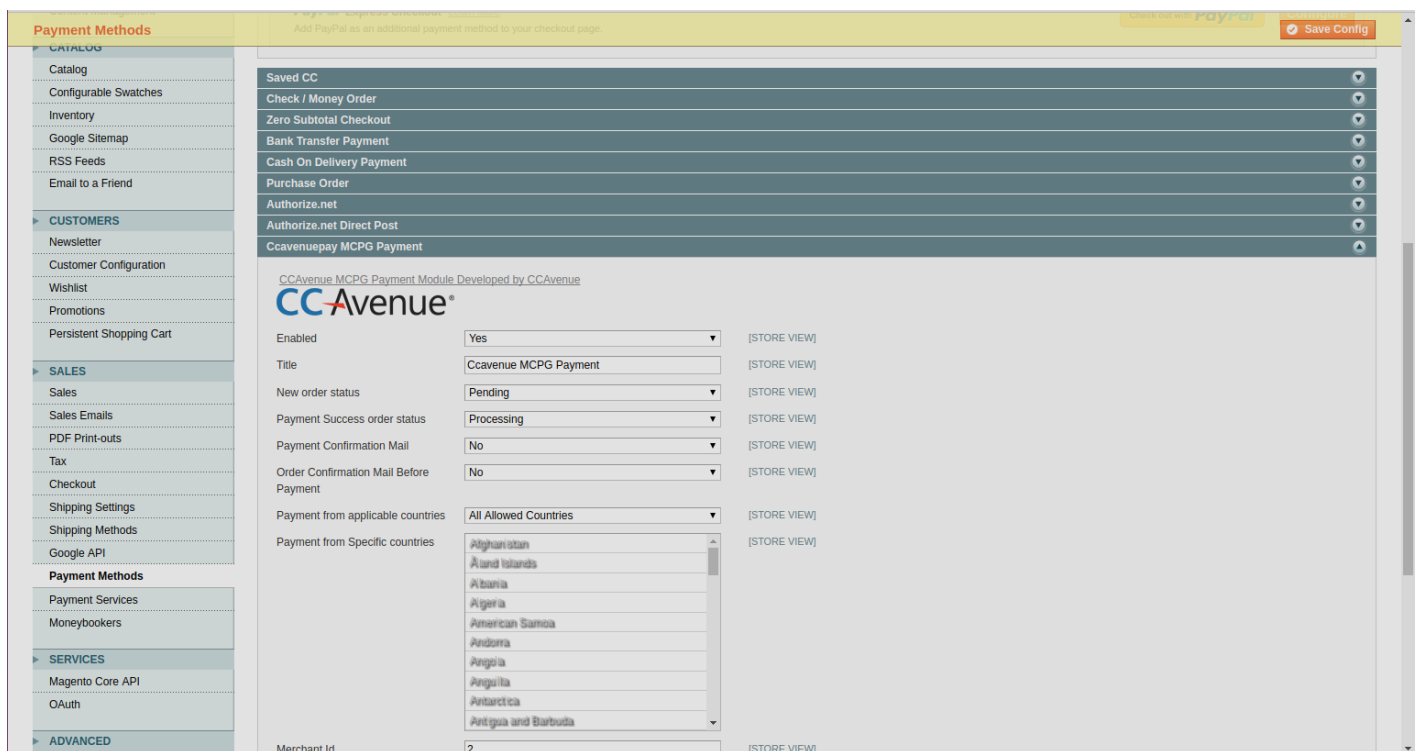

[Help Us Keep Magento Healthy - Report All Bugs](#) Magento ver. 1.9.3.7 [Connect with the Magento Community](#)

Interface Locale: [English \(United States\)](#) / [English](#) | [Magento™ is a trademark of Magento Inc.](#)

- (i). Log into your Magento Admin using your admin ID and password.
- (ii). Then, go to System > Cache Management.
- (iii). Select “All Cache” option as shown above.
- (iv). Click “Flush Magento Cache” and “Flush Storage” to clear the cache.
- (v). Select “Save cache setting” to save your selection.
- (vi). Your module has been installed. Now, you need to configure it for your store with your CCAvenue credential details.

Step 7: Now, navigate to your Magento back end and perform the following steps.

- (i) Go to System > Configurations.
- (ii) Click on the “Payment Methods” option in the left block under “Sales” option and select “CCAvenue MCPG Payment”.

Step 8: Now set the Merchant Id, Encryption Key and Access Code provided by CCAvenue on your store module and activate them by following these easy steps:

- (i) Go to the “Enabled” option and select “yes” to activate the module.
- (ii) Type the Module name as ‘CCAvenue MCPG Payment’ or any similar nomenclature.
- (iii) Select “New order status” to “pending” for the by default option.
- (iv) Click on the Payment from applicable countries option and select the “All Allowed countries” for the By default option.
- (v) Now, provide your Merchant ID which you will find under Settings > API Keys in your merchant account. If you do not have a Merchant ID yet, then please contact us at service@ccavenue.com

Step 9: The payment module has been successfully installed. Now, test the newly installed shopping cart at your frontend.

Your customers can now enjoy a smooth and seamless experience with CCAvenue.

Thank You!
